ART & CRAFT/ VISUAL ARTS

Art Boot Camp Creative Academy

Art Boot Camp Creative Academy is a fresh and innovative new concept in children's art education that takes a disciplined approach to creativity. It believes that children possess boundless creativity, yet need boundaries in order to apply it effectively. There are valuable lessons to be had in making pretty pictures that kids can apply to the 'big picture', their whole lives long. Art Boot Camp will also guide each child along on developing important lifelong skills like deep listening and act towards building up his/her confidence levels.

Art Zone

Art Zone is an art centre that believes every student is guided according to their individual's learning ability and perception level. Students get to experience the joy of artistic expression, they are given vast opportunities to express their ideas, imaginations, emotions, observations and experiences during the learning process. This centre caters to both the expatriates and local community, thus the art programs are well planned to balance the east and west teaching

approach to cater to the different cultures and upbringing of our students. No doubt that student will be exposed to many art concepts in a simplified and fun way. Art is a perfect channel of expression for any age. And given the opportunity, you might be really surprised by how well your children express their emotions or experiences through art.

My Art Pencil

At My Art Pencil, we believe that drawing is not a gift but a skill that can be acquired. Learning through art is vital to the development of young minds. With the current focus on verbal and numerical skills (left brain), art provides an avenue for children to nurture their intuitive and creative skills (right brain), hence, attain whole brain learning. They respect that every child is unique and learns at a different pace. While striving to provide a comprehensive curriculum, they also recognise that cultivating passion for art and freedom of expression are equally important. Each child receives personalised attention and makes progress in a non-competitive yet stimulative environment.

Shichida Kindergarten

Shichida Kindergarten is a Mini-University at Pre-School Level! At Shichida Kindergarten, every child is treated uniquely as they are given personalized attention on their work quality. The focus is on widening and deepening the children's perception skills. Furthermore, it may bring benefit to a child because he/she will perceive the interconnection of information and stimulate the creation of new knowledge. The school curriculum also uses worksheets to improve the children's thinking ability.

Singapore Brain Development Centre

Singapore Brain Development Centre (SBDC) is the premier provider of holistic training programs for full cognitive development of the brain. Together with their mission statement of "Changing Lives, Unleashing The Fullest Potential", their core belief is that every child can excel to their fullest given the right tools and skills. This is why the latest scientific brain-training programs were offered to enhance cognitive skills - underlying learning and processing capabilities - to make learning easier and faster. These children will build underlying learning skills and the tools to help them function far more effectively at school, at work and at play.

Genius Space

Genius Space is a complete enrichment hub for infants, toddlers and

pre-schoolers. Their goal is to challenge the children, regardless of how smart they are and to stretch their minds as best as they can. Promising a unique blend of methodologies, Genius Spaces offers early learners a curriculum derived from the best practices of all early childhood learning methodologies. The programs promote literacy, numerals, science and social-environmental learning through self-discovery, drama, finger-play, puppetry, cookery and other holistic brain development activities. What really sets Genius Space apart from the rest is their quality education and ability to introduce new media to engage parents through their child's learning journey. We are the first centre in the education industry to implement interactive engagement online and offline with parents. With our interactive-based website, parents can log in and view reports from educators with regards to their child progress. Parents are also provided the platform to interact with educators online and work hand in hand together to optimize their child's strengths and interests, in a more personalized environment.

Kooky Art

Kooky Art is a new creative activity that aims to bring out the child's creativity through art by using their favourite foods. Their specialty is in food decorating art. Unlike an artist who uses paint and canvas, kids at Kooky Art® use materials like sugar icing and sprinkles to 'paint' on cookies and cakes. They get to experiment and play with different colours and textures. They will have a wacky fun time discovering their creative talents. At the end of it all, they will

get a fantastic sense of achievement at what they have accomplished! It's safe and fun - no cooking or baking is involved.

AGE GROUP: 3 years and above

CONTACT DETAILS:

Address: Kooky Art do not provide venue, however these classes can be held anyway at your convenience.

Molin Tutorial Centre

Molin Tutorial Centre is an enrichment centre specialising only in Chinese for children of nursery, kindergarten, Primary and Secondary levels. They are one of the more established "Chinese specialists" in Singapore, registered with the Ministry of Education since 1989. They achieve this by first instilling an interest in the language, enabling their students to participate actively in the learning process through games and activity-based learning feature prominently in the classes. Their special features are their unique pro-active teaching method and their curriculum.

Kicked Out of Class (KOOC)

Kicked Out of Class (KOOC) is an enrichment programme that aims to engage children in an environment that stimulates their learning. Their winning formula - programmes are held outdoors. KOOC believes learning should not be confined to the classroom. By going out and about, the classes offer your children a well-rounded experience – one that is educational, interactive, sensory. But best of all, the sessions allow children to have fun while learning. Children are exposed to various types of new environments where they will be guided through meaningful play to learn simple concepts in Mathematics, Science, and languages.

Genius Space

Genius Space is a complete enrichment hub for infants, toddlers and pre-schoolers. Their goal is to challenge the children, regardless of how smart they are and to stretch their minds as best as they can. Promising a unique blend of methodologies, Genius Spaces offers early learners a curriculum derived from the best practices of all early childhood learning methodologies. The programs promote literacy, numerals, science and social-environmental learning through self-discovery, drama, finger-play, puppetry, cookery and other holistic brain development activities. What really sets Genius Space apart from the rest is their quality education and ability to introduce new media to engage parents through their child's learning journey. We are the first centre in the education industry to implement interactive engagement online and offline

with parents. With our interactive-based website, parents can log in and view reports from educators with regards to their child progress. Parents are also provided the platform to interact with educators online and work hand in hand together to optimize their child's strengths and interests, in a more personalized environment.
