

VIKING NAMES

As a Viking, your name is very important. Odin is watching you, are you worthy of being by his side as an Einherjar? Not with a name like Larry you're not.

Note: Your name takes the form of xxx yyyson.

For example: Brand Eidson (Brand son of Eid). It is also allowable to have the standard Brand son of Eid, the Norse used both historically. The latter was more for boasting and generally showing off.
